FIGHT SHOULD BE TO A FINISH

Is Conclusion of Editor Pindell—Millions of Men Yet to Perish

"There is no victory near for either side in the European war. It will be two or three years before the conflict ends and millions more men will be slain before peace comes." This is the opinion of Henry Pindell, publisher of the Peoria Evening Journal and once appointed as United States ambassador to Russia, who reached New York Tuesday on the St. Louis, of the American line, in from Liverpool. Pindell spent some time along the second line of trenches extending for thirty miles in the vicinity of Verdun, where he saw, as he put it, "everything but the actual murdering of the men. He returned a firm believer in the necessity for this country keeping out of the conflict."

"I am not a peace propagandist," he said, "but if all Americans could see what I have seen they would never go to extreme measures except as a last resort. The situation in Europe defies description. New words and phrases will be needed to tell the horror of it."

"However, a premature ending of the war would be a misfortune. It is best for future peace to let them finish, but I do not want to see America drawn in."

"France is a strange, new, subdued nation, but she is preparing to fight to the end. Nevertheless, one already hears murmurs of 'after the war, then what?' There is a growing inclination to ask, 'What is the justification for all this slaughter?'"

"I talked to a man near Carey, a member of a regiment which started out with 4000 men. He was one of 200 that were left. He described a certain battle as a mingling of terrific noises, a shaking and trembling of the earth, blinding, choking smoke, hiding all sight of both friend and foe, the screams of the wounded and dying and then the confusion of the retreat. Neither he nor his comrades had any idea of what they were accomplishing."

The prize offered in this competition is the regimental team trophy, now held by the Second infantry. The trophy remains in the possession of the Colonel of the winning regiment until the succeeding state competition.

For the purpose of securing a team to represent the state at the national rifle matches at Jacksonville, Fla., in October, the thirty competitors making the highest aggregate individual scores in the company team match, the governor's match and the scores fired will be retained in the camp at Earlington at the conclusion of the regimental team match to contest for membership on the state team.

The "Williams Medal" will be presented to the member of the state team making the highest aggregate score in the national team match. This medal is presented by Brig.-Gen. Roger D. Williams.

Season Closes November 30.

For the purpose of securing team representatives for a state competition, the period of one month preceding September 20 will be devoted to record practice and officers and men belonging

The teams are to be composed of five principals and one alternate to be selected by their commanding officer provided that but one commissioned officer will be allowed to a team.

LITTLE "PAT" BRIEN

Answers Call of His Master
Last Tuesday Morning

The "Angel of Death" came suddenly into our midst on Tuesday morning June the 15th., inst. when Robert M. Brien, grandson of Mr. M. Hanna was gently wafted to his heavenly home.

He was the oldest child of Mr. and Mrs. John L. Brien of Madisonville, Ky., his age being nine years and one month.

He was a very bright and promising boy possessing a keen mind, a joyous happy disposition; truly it may be said of little "Pat" he was the light of the household, the pride of fond parents, and the joy of an aged grandfather.

Although every care that loving hearts could suggest had been lavished upon him, it was God's chosen time to call him "home" while his young heart was free from sin.

The funeral services were held at the Church of The Immaculate Conception, Wednesday morning at nine o'clock. A High Mass of Requiem was sung by the Rev. Martin O'Connor of Louisville, former pastor at Earlington.

Rev. O'Connor spoke in beautiful and touching words, his sermon being a great source of consolation to the bereaved ones.

Messrs. James Maloney, Jewell Webb, Brick Smithworth and John Hanna were active pallbearers followed by six little boys carrying lighted candles who acted as honorary pallbearers.

Then came the little flower girls, Anna M. O'Brien, Mary L. DeVyder, Geraldine and Margaret Donahue, Loretto Dubolsen and Christina Bohan, carrying the floral designs.

The ceremonies were beautiful and impressive. His remains were lovingly laid to rest under a blanket of roses. Though his spirit has flown his memory will yet live on.

ENGINEERS FIGHT BOOZE

By a unanimous vote the Brotherhood of Locomotive Engineers, meeting in Cleveland, endorsed state and national prohibition. Consequently the dry cause has perhaps the strongest body of union men in the world back of it. Here is what one of the engineers said after the resolution had been passed:

"This is simply an indication of the trend of the times. Engineers of North America have been trained for years that drink and efficiency do not run hand in hand. If anyone needs a clear head it is the man in the cab. The fellow back in the sleeper may drink a cocktail if he wants to, but we who have to keep watching signals every minute know that if we are not at our best the man in the sleeper and we ourselves will pay our lives for carelessness."

The sale of Tanlac, the famous medicine being introduced in Louisville by the personal direction of Mr. Cooper, is now very great, and is steadily increasing. IMMENSE AUTO-MOBILE PROFITS

The New York Herald prints a dispatch from Detroit about the Ford Motor company, which has just increased its capital stock from two millions to one hundred millions. Forty-eight million of the new stock will be paid as dividends to the holders of the original two millions; the remaining fifty millions will be held in reserve for future dividends, etc. This manipulation is one of the greatest stunts in high finance that has been undertaken thus far in America. Even Wizard Harriman never did anything quite equalling it in audacity. Assuming that the original two millions of Ford Motor company stock was fully paid, this manipulation multiplies it 50 times—making the new stock 49 parts water to one part reality. Every purchaser of a Ford car naturally will contribute his proportion to the interest charge on the water. The manipulation serves to bring once more into prominence the fact that the American people are paying swollen prices for automobiles. Through such manipulations the city of Detroit—head of the automobile industry—has in a few years become one of the wealthiest cities in the world. The interstate commerce commission might well take its heavy and blighting hand off of the railways for a time and turn its attention to that other important adjunct of transportation, the automobile industry.

50,000 LOAVES FOR THE POOR

Great Charitable Act Executed in Louisville by the
"Tanlac Man."

Louisville, June 15.—Fifty thousand loaves of bread will be given away by L. F. Cooper, the "Tanlac man," to the poor people of Louisville.

The "bread line," as this unique charitable act is termed, was inaugurated between the hours of 10 and 12 o'clock, several thousand loaves of bread were distributed to the worthy on the big vacant lot on Walnut St., next to The Daily Herald, in ample time for Sabbath dinner.

Mr. Cooper awarded an order for 50,000 loaves of bread to the American Baking Company. The bread is of the very best quality.

When seen at the Seelbach, where the noted visitor is stopping, Mr. Cooper said:

"I have anticipated the beginning of this work among the poor with keen interest. I have wanted to perform some small service of this kind in the metropolis city of my native state, Kentucky, for several years."

"Therefore, the initial order for the bread, consisting of fifty thousand loaves, has been given to the American Baking Company, and the work has begun."

"We gave away several thousand loaves Sunday, and each time we will meet the demand."

The sale of Tanlac, the famous medicine being introduced in Louisville by the personal direction of Mr. Cooper, is now very great, and is steadily increasing. The results in cases of catarrhal affections, or stomach, liver and kidney derangements, are really remarkable, and many of Louisville's best citizens are testifying to the medicine's marvelous merits.

GOOD APPLE CROP IN SIGHT

A report for May from the secretary of the Iowa Horticultural society states that from the present conditions Iowa will have 90 per cent of a full crop of apples.

The codling moth has been slow on account of the cool, wet weather, in making its appearance, but this is no sign that considerable damage will not be done by it before the season is over. Last year a great many orchards bore enough apples for the codling moth or apple worm to breed in great numbers. Those who have already sprayed their apples from one to three times should not forget to spray for the second brood the latter part of July or the fore part of August.

LARGE QUANTITIES

Of Munitions of War Manufactured in United States

The United States is becoming the most important producer of munitions of war. The plant at Bethlehem, Penna., has four times the capacity of the German plant at Essen, in Milwaukee, in Chicago, in East St. Louis, in New Jersey, and at several points in New England are large factories engaged in the manufacture of shells, cartridges and small arms. The Bethlehem works, recently much enlarged, have one contract for eight thousand cannon to be ready for delivery within forty days. So many gun stocks have been made—over eight millions—that the walnut is getting short, and substitutes are being used. There is a propaganda being urged on by pro-Germans in the United States against our exportations of armaments and ammunition. For us to cease to supply the allies at this time would place them at the mercy of the Anstro-German forces who have done nothing for the past 25 years except to make ammunition and guns and drill recruits for this war. If the allies are able to hold their own and thus to preserve human liberty from destruction then it will be for the reason that America is furnishing the ammunition. The same ammunition would have to be used by us later on if not by the allies now.

SHERIFF LOGAN AND DEPUTIES

Called to Dawson Springs Late Wednesday Night in Anticipation of a Visit from Night Riders.

Rumors that a visit was to be paid certain parties at Dawson Springs Wednesday night resulted in a hurry-up call for Sheriff Logan about 11:30 that night. Mr. Logan and Deputies Will Sisk and Paul Lacy, M. K. Gordon and four others went to Dawson in automobiles. When the officers arrived there everything was quiet with no evidence of any mob.

It seems that several nights ago a negro chauffeur at Dawson had been taken out and whipped. The negro had been warned, it was claimed, about his reckless driving of the car, and had failed to heed the warning. A band of masked men visited the negro and administered a whipping. Sheriff Logan stated yesterday that the negro had said that there were not more than a dozen men in the crowd, and it was thought to have been the work of local talent.

Wednesday it appears the rumor got out that another visit would be made that night. The officers were summoned, and spent the night in Dawson, but no disturbance of any kind was reported.

—HIS LOVE SONG—

If you were mine I'd think the earth
Would take a brighter color on;
Each day would mark a season's

birth;
Each hour be radiant as the dawn
The breeze were sweeter, and each
star
With added brilliancy, would
shine—
This world below were better far
Than heaven could be—if you were
mine.

If you were mine the life of life
Would be more easy to endure;
Untouched by all its storm and
strife,
My soul more strong, my heart
more pure;
And every song that I might sing
Would gain a note almost divine,
Such inspiration you would bring
To all I wrought—if you were
mine.
If you were mine, I would not care
Though all the rest deserted me—
I still should have the largest share
Oh joy, to all eternity;
Ay, more—for, dear, I can't forget
What wants extravagant are
thine—
I should be even more in debt
Than I am now, if you were mine.
—The Argonaut.

—THEY WAIT FOR YOU—

Look not, O friend, with unavailing
tears
Into the Past—look to the brave
young years!
Look to the Future: all is there in
wait,
All that you fought for by the broken
en gate—
The faith that faltered and the hope
that fell,
The song that died into a lonely
knell.
It is all there—the love that went
astray
With bitter cries in that remem-
bered day:
The joys that were so needed by the
heart,
And all the tender dreams you saw
depart.
Nothing is lost forever that the
soul
Cried out for; all is waiting at the
gold.

KENTUCKY RE-PUBLICANS FOR COUNTY UNIT

Dr. Ben L. Bruner With-

P. Morrow—Hunter Also
Withdraws from Race.

Lexington, Ky., June 15—Kentucky Republicans in their state platform convention here tonight declared for the county unit law as against state-wide prohibition and for the submitting of an amendment to the voters of the state allowing suffrage to women. The convention was one of the most harmonious ever held in Kentucky.

Judge E. C. O'Rear, of Frankfort, who was allowed to cast his ballot as he saw fit, through the rest of the delegates were instructed to vote for the county unit plank, offered a state-wide prohibition plank. It was defeated more than ten to one. Dr. Ben L. Bruner, seeing the trend of affairs, in a speech before the convention, withdrew from the race for the nomination for governor in favor of Edwin P. Morrow. He promised his unequalled support to Morrow. Dr. Bruner also offered a "dry" plank which was defeated. Dr. Godfrey Hunter, of Harlan, also announced today that he is no longer a candidate for the nomination for governor.

Throughout the convention Morrow was given frequent ovations and it was apparent that he had secured the majority of the delegates. Republican leaders tonight expressed themselves of being confident as to the outcome of the election in November.

More than 2,300 delegates, representing every county in the state, framed the republican platform for the November election. The planks adopted include an endorsement of the national republican party, a demand that United States coast defenses be strengthened, protection of American industry, equitable redistricting in Kentucky of senatorial, legislative and judicial districts, repeal of the present primary law, publicity concerning expenditure of political campaign funds and laws giving the railroad commission control over public utilities.

High Art Suits at \$20

Are a Better Advertisement Than This One:

Much advertising advertises the advertising and not the goods.

But in "High Art" Suits the advertising extends to the merchandise, and there is nothing we can say about "High Art" Suits at \$20, which will equal what the suits say for themselves.

The range of choice patterns is without parallel in any other clothing stock in this vicinity; grays and greens and mixtures in a dozen different combinations; prominent or obscure plaids and checks, and many neat conservative stripes.

Hand-tailoring makes the distinctive and exclusive "High Art" styles permanent. "High Art" fair prices make your money go farthest in securing value. And our complete stocks make fitting you and pleasing you certain. Wonderful values at \$20.

Other Suits at \$10 to \$30. Palm Beach Suits \$6 to \$10—stunning models for Young Men. Best for boys' wear—Our Boys' Shop.

About the things he has to sell

Like he who climbs a tree and
"hollers."

WOMEN OF KENTUCKY.

Newport, Ky.—"I have had a very good experience with 'Favorite Prescription.' I was dragged out and so severely sick with female trouble that I was down in bed and had to give up all work. I did not get any strength from anything. Then I read of what Dr. Pierce's Favorite Prescription was doing for others and my husband procured two bottles of 'Prescription' at the drug store. I got stronger at once and the use of two bottles brought me up from my sick bed and put me on my feet. I have had no return of the trouble since. This was some ten years ago."—MRS. NANCY SANDERS, 338 Central Ave.
Thousands of women right here in Kentucky who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer from ailments peculiar to women when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription, which will surely and quickly banish all pain, distress and misery and restore the womanly functions to perfect health.
Young mothers who preserve the charms of face and figure in spite of an increasing family and the care of growing children are always to be envied. Doctor Pierce's Favorite Prescription gives the strength and health upon which happy motherhood depends. It practically does away with the pains of maternity. It enables the mother to nourish the infant life depending on her, and enjoy the hourly happiness of watching the development of a perfectly healthy child.
Sick headache, biliousness, constipation, and all derangements of the liver, stomach and bowels are relieved, prevented, by Dr. Pierce's Pleasant Pellets.

THE RESIGNATION OF MR. BRYAN

The resignation of Mr. Bryan came to the country like a bolt out of a clear sky. And Washington itself was hardly prepared for what happened, though for several days the best informed public men confided "that they did not see how Mr. Bryan could sign the President's note to Germany." The future the Democratic party, now facing new conditions, is of the utmost concern to the country. With Mr. Bryan on the outside the opposition to President Wilson will no longer seek to hide itself. Bryan is a spectacular figure in the eyes of the world today—and no man can foretell how future events may shape, or revolve around his star of destiny. His enemies hope that he will be a "dead one," but they know he never will be. From a political standpoint the rejoicing is among the Republicans. As to how Bryan's resignation will affect the nation and its affairs, only time can decide.

ANOTHER CHAPTER ON MEXICO

The Mexicans appear to have united in a demand to restore the governmental policies of Madero, and President Wilson has told the bluffers to "do it now," intimating that in case of delay, that he will take a hand in affairs. Heretofore any pressure from Washington has provoked angry retorts—but this time the Mexicans have all responded in sweet and lovely phrases. Just what President Wilson proposes to do in Mexico is not clear, but it is certain that he has worked out a definite policy that will call for drastic interference in the affairs of the alleged Republic at our southern border.

What Do You Pay For Prescriptions?

You can always get your prescriptions filled at the St. Bernard Drug Store at a reasonable price. Why? Simply because when the doctor writes an order for drugs we have the proper drugs to fill that order. We do not have to send out hurriedly and go to extra expense in order to supply your wants. Our thoroughly equipped and well-stocked prescription department assures you of getting the right drugs,

and, furthermore, you can always feel sure that your prescriptions are compounded exactly as they should be.

Many of the prescriptions we fill for a quarter or less; few cost more, and if they do cost more, then you can rest assured that the price you pay is due to a greater cost of the ingredients, and that if your doctor did not want these special ingredients he would not have ordered them. In any case you get exactly what you pay for, and, in addition, you get the advantage of our skillful compounding at no extra charge.
